

ATRISI
RESEARCH & INNOVATION FOUNDATION

STUDENT CAPABILITY ENGINE · GUIDE 03

ATRISI Programme Guide · Edition 01 · Revision 1.1 · August 2026 · Published

From AI usage to AI-Native Capability and Applied Intelligence.

Two equally valued tracks for students who build intelligent systems and students who design intelligence into domain work.

Degrees stay with your institution.

ASPIRATION

Most students use AI to move faster. Amplify helps them make intelligence reusable.

Visible capability means systems built, workflows designed, and evidence captured.

01 Not a one-off workshop

02 Not a replacement degree brand

03 Student engine inside Academic Transformation

ATRISI

Who it serves
All streams. Different capability intentions.

WHO IT SERVES

All streams. Different capability intentions.

Track selection follows what the student wants to create—not a hierarchy of technical worth.

01 CS, IT and engineering builders

02 Domain and non-engineering practitioners

03 No-code gate for Applied Intelligence

Two tracks
Build systems or design domain workflows.

TWO TRACKS

Build systems or design domain workflows.

AI-Native Capability and Applied Intelligence carry equal visual and academic weight.

01 Builder Track · deployable project

02 Domain Track · applied artifact

03 Different questions, equal rigour

ATRISI

Journey
Ideate → build → ship → deploy → iterate.

JOURNEY

Ideate → build → ship → deploy → iterate.

Kickoffs, challenges, sprints, prework, cohorts, showcases, and community signals form a shipping rhythm.

01

8-Day AI-Native Capability Cohort

02

8-Day Applied Intelligence Cohort

Capstones
What done looks like.

CAPSTONES

What done looks like.

A mentor-reviewable artifact with problem context, constraints, decisions, and evidence of iteration.

01 **Usefulness and domain fit**

02 **Deployment or workflow clarity**

03 **Responsible use and demo quality**

ATRISI
RESEARCH · INNOVATION · CAPABILITY · INTELLIGENCE

Journey	Capstones	Ladder placement
Ideate → build → ship → deploy → iterate.	What done looks like.	The student capability engine on the ladder.

LADDER PLACEMENT

The student capability engine on the ladder.

Amplify sits above Campus-to-Career and feeds AAF academic realizations; Resonance stays the faculty parallel rail.

01 C2C institutional entry

02 Amplify student capability

03 AAF Minor / Honors / Degree

Relationship to C2C
Run inside the year—or as a focused cohort.

RELATIONSHIP TO C2C

Run inside the year—or as a focused cohort.

Amplify can operate inside institutional governance or ahead of a full C2C adoption.

01 Inside C2C

02 Standalone department cohort

03 Scale evidence into AAF

Delivery modes
Cohorts that ship—custom packaging when co-designed.

DELIVERY MODES

Cohorts that ship—custom packaging when co-designed.

Current cohorts and entry journeys are primary; labs and semester formats remain partner-specific packaging.

01 **Cohort and campus**

02 **Hybrid build window**

03 **No invented public pricing**

ATRISI

Evidence
Capability is visible in artifacts and iteration.

EVIDENCE

Capability is visible in artifacts and iteration.

Activity signals are not automatically outcome claims; every published claim retains its evidence level.

01 **Working system or workflow**

02 **Rubric and showcase signals**

03 **No guaranteed career outcomes**

> **Amplify — student capability programme · C2C — Campus-to-Career · AAF — ATRISI Academic Framework · HoD — Head of Department**
